WHAT WE DO

From the newcomers to international brands, consumer packaged goods companies come to Arena Health to produce superior health and wellness products.

We work with our clients to develop, create, test and produce products through our extensive white label and bespoke private label development services.

Our portfolio demonstrates innovation and creativity through all aspects of our products.

We only source ingredients from reputable and accredited suppliers. All materials are third-party tested by ISO 17025 factories. Our manufacturing facilities are SALSA and Soil Association accredited.

In 2023, we are committed to giving a maximum 12 week lead time for standard manufacturing processes.

COMPLIANCE & QUALITY

Arena Health Ltd has a dedicated quality team who continually work to implement and improve the already exceptionally high standards at Arena Health Ltd. Our Ringwood manufacturing facility is SALSA accredited and works to strict GMP standards. We are also Soil Association accredited.

All products manufactured in our facility comply to FSA and EFSA standards, and where relevant, FDA standards. Our facility is currently undergoing the FDA application process as well as the GMP licensing process.

Third Party Testing

All raw material is third party tested according to Commission Regulation No. 2073/2005 and 396/2005 by an ISO 17025 laboratory before being accepted into our warehouse. Additional testing can be done to include allergens, GMOs and confirm vitamin and mineral amounts.

Full Digital Tracking

Our state of the art digital system allows us to have full traceability of your products - from the raw material, to the bottle it has been packaged in - using unique batch numbers. We can efficiently plan all of your productions with ingredient allocations, ensuring there are no errors in the manufacturing process. You'll be informed every step of the way - from checking the mix for lumps, to randomly checking fill weights of packaged products.

Accredited Suppliers

We only use materials sourced from accredited GMP, BRC or SALSA manufacturers or suppliers. All materials are tested to EU standards before being admitted to our warehouse. Materials must be accompanied with an approved certificate of analysis which conforms to EFSA regulations.

OUR SERVICES

We provide a fully comprehensive A-Z service list to help develop and grow your brand and products.

FORMULATION

We have specialist consultant, experts in their fields, to formulate your products to your exact specifications.

SAMPLING

We can create sample productions of just 3000 capsules, before committing to a full batch run.

GLOBAL OUTREACH

Our products are always manufactured to FSA and EFSA standards, and can be made to be produced to other standards - such as FDA - to appease to international requirements.

BRANDING AND GRAPHICS

Our in house graphics team can help guide your brand development as well as help with label and packaging design.

CONTRACT MANUFACTURING

From batch sizes of just 60,000 capsules or 100kg of powder. Your formula will come to life with it's bespoke formulation in specialist packaging. (Subject to change per formulation)

DISTRIBUTION

Your product can be shipped to any address worldwide.

STORAGE

All material is stored in our SALSA approved warehouse in Ringwood. Where necessary, temperature controlled environments are used.

PACKAGING SOLUTIONS

You've created the perfect formula, now it's time to communicate that with your customer. With Arena Health, we have a selection of packaging solutions to choose from.

Jars

- A range of different sizes, colours and opacity options available.
- Made from either HDPE, PET or glass. Environmentally friendly and recyclable options too.

Pouches

- A range of different sizes and print types available.
- Letter box friendly.
- Recyclable, biodegradable and compostible options

Lids

- Complete selection available.
- All come with pressure or heat seals.
- Plastic or metal available.
- Customisation on offer.

Labels

- MOQ of just 500.
- Huge range of materials.
- Sizes customisable.
- Special effects to make your label stand out.

MANUFACTURING

It's important that our clients know exactly how we work, so we have outlined how we give the most efficient service possible.

ENQUIRE

Get in contact with us by emailing or calling our dedicated accounts team. Let them know what you're looking for and they'll advise you on the options available.

QUOTE

A quote will be emailed to you detailing the product specification and manufacturing pricing.

MANUFACTURE

Once you've confirmed with your account manager that you would like to go ahead with the quote, the production team will take over. They'll be able to give you an exact lead time for completion and dispatch.

QUALITY

All products undergo rigorous quality checks to ensure the highest level of product is produced. Samples will be kept of the completed product. External testing can be performed as requested.

DISTRIBUTION

Finished products can be dispatched to anywhere in the world. We can even send your products to Amazon or your favourite distribution centre for fulfilment. Pallets are normally sent on next day delivery.

Head of Certification

GOING ORGANIC

Scheme 1:

- Business to the Customer via amazon - you require a full Soil Association license.
- Business to another Business - you require a full Soil Association license.

Scheme 2:

- Business to the Customer - you don't need a license (not via Amazon).

SCHEME 1 - Full License

Please contact the soil association goorganic@soilassociation.org and apply for a license. The application can take up to 8 weeks, even before your inspection. Please let them know that you are a client of Arena Health Ltd and that we will be manufacturing for you on your behalf (License Number DA30761).

Once the license is granted you should send the product SIPS or MIPS and label artwork for review. The products will then be added onto your trading schedule.

Please also let us know if you follow this route by email to info@arenahealth.co.uk or to your account manager. Your labels will need to be approved and the products will need to be added to our trading schedule as well as yours.

SCHEME 2 - Symbol User Agreement

This is not a full manufacturing organic license but a scheme allowing you to use the soil association logo on your products. Labels have to be approved by the Soil Association before being used.

This scheme is aimed at brand holders who outsource the entire manufacturing process from SA-certified suppliers. They must only sell direct to consumers only. On approval the brand holder will be issued a certificate and schedule confirming their brand is permitted to use the symbol on only the specific verified products.

Please contact info@arenahealth.co.uk or your account manager if you would like to use this scheme and we can send the relevant paperwork and labels to the Soil Association to be verified and approved.
